

# VeloxChain

Connecting Urban Mobility on Blockchain

[www.veloxchain.io](http://www.veloxchain.io)

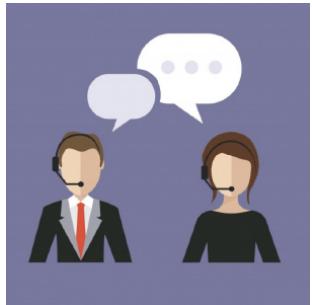

# Problem of Urban Mobility

---

## End User

- Lack of Total solutions for Door-to-Door Traveling
- Insufficient supply of Mobility Vehicles/Fleet Operators

## Fleet Operator

- Expensive to Start if using centralized system
- No Incentive to Start when there is giant competitor in the market
- Lack of customized solution for revenue sharing fleet operation system

## Suppliers

- Trust Issue preventing innovative partnership
- Lack of Technology Depth and Incentive to Develop revenue sharing fleet operation system

# Value Proposition

The screenshot shows the VeloxBiz homepage with a dark header "FIND THE SPECIAL THINGS DISCOVER". It features a search bar and filters for "Categories", "Country", "City", and "Vehicle". Below the header are sections for "Popular Merchants" (Volata Cycles, Shadow, QQ Bike-sharing), "Vehicle Supplier" (Volata Cycles, Shadow, Venmoof, Local Investor), "Mobility Fleet Operators" (QQ Bike-sharing, BikeShare, Telepod, GoGreen), "Retailer Service Providers" (Wyndham, Nanyang Technologies, Resort World Sentosa, The Local Community), and "Developers" (Fluidtime, GetSwift, SamSara, Vortex). At the bottom, there's a footer with contact information, a newsletter sign-up, and social media links.

VeloxBiz is a B2B marketplace like Alibaba for hardware providers (vehicles, IoT), SaaS development companies and Fleet Operators, bridging the gap between Fleet Operators, Mobility Vehicle Suppliers and other ecosystem players.

Merchant Marketplace

Vehicle and user registration

Fleet Management

Payment Processing and revenue distribution

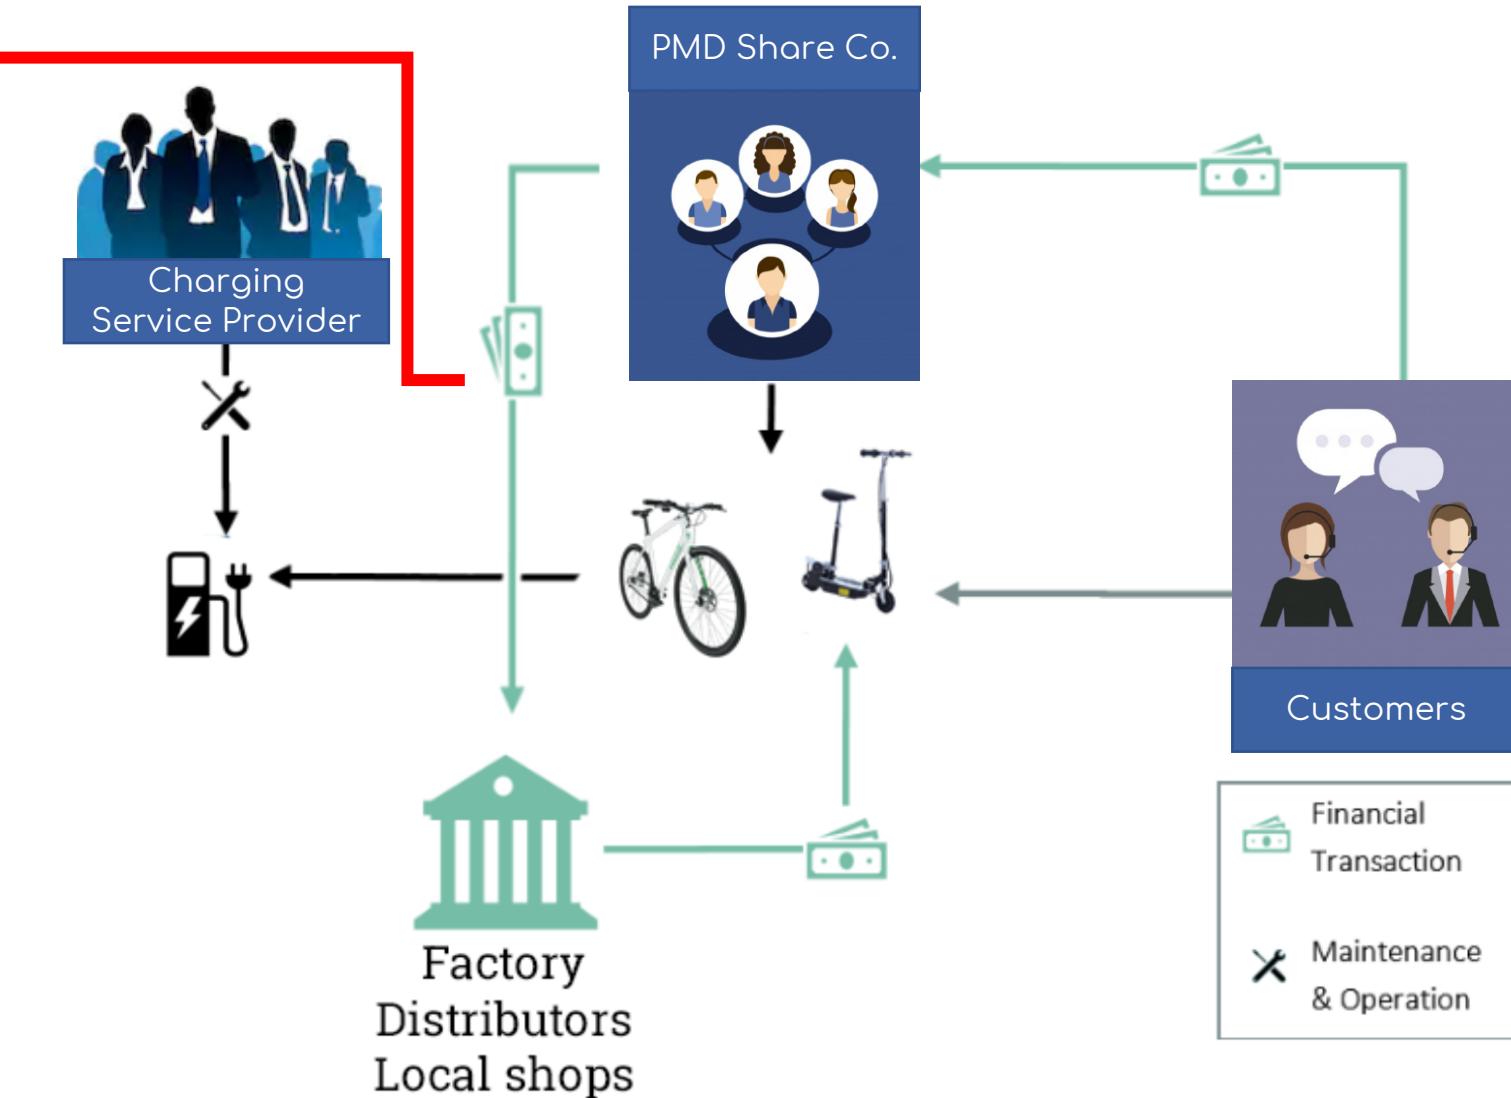

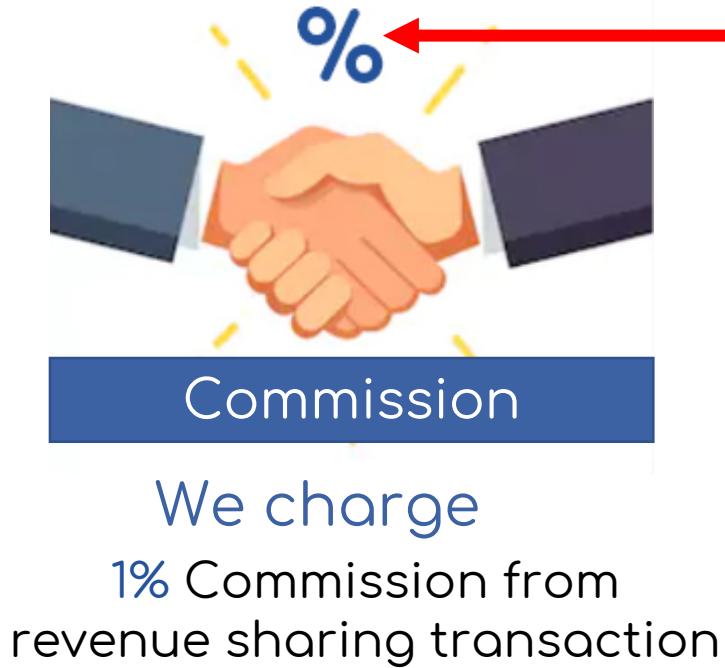

Fraud detection

Credit scoring

# Veloxchain Technology

---

# Go-To-Market Strategy

## Direct Partnership with Shared Mobility Service Providers or Suppliers

- Providing solutions for their need: Customized Trustless Revenue Sharing Fleet Operation Management software

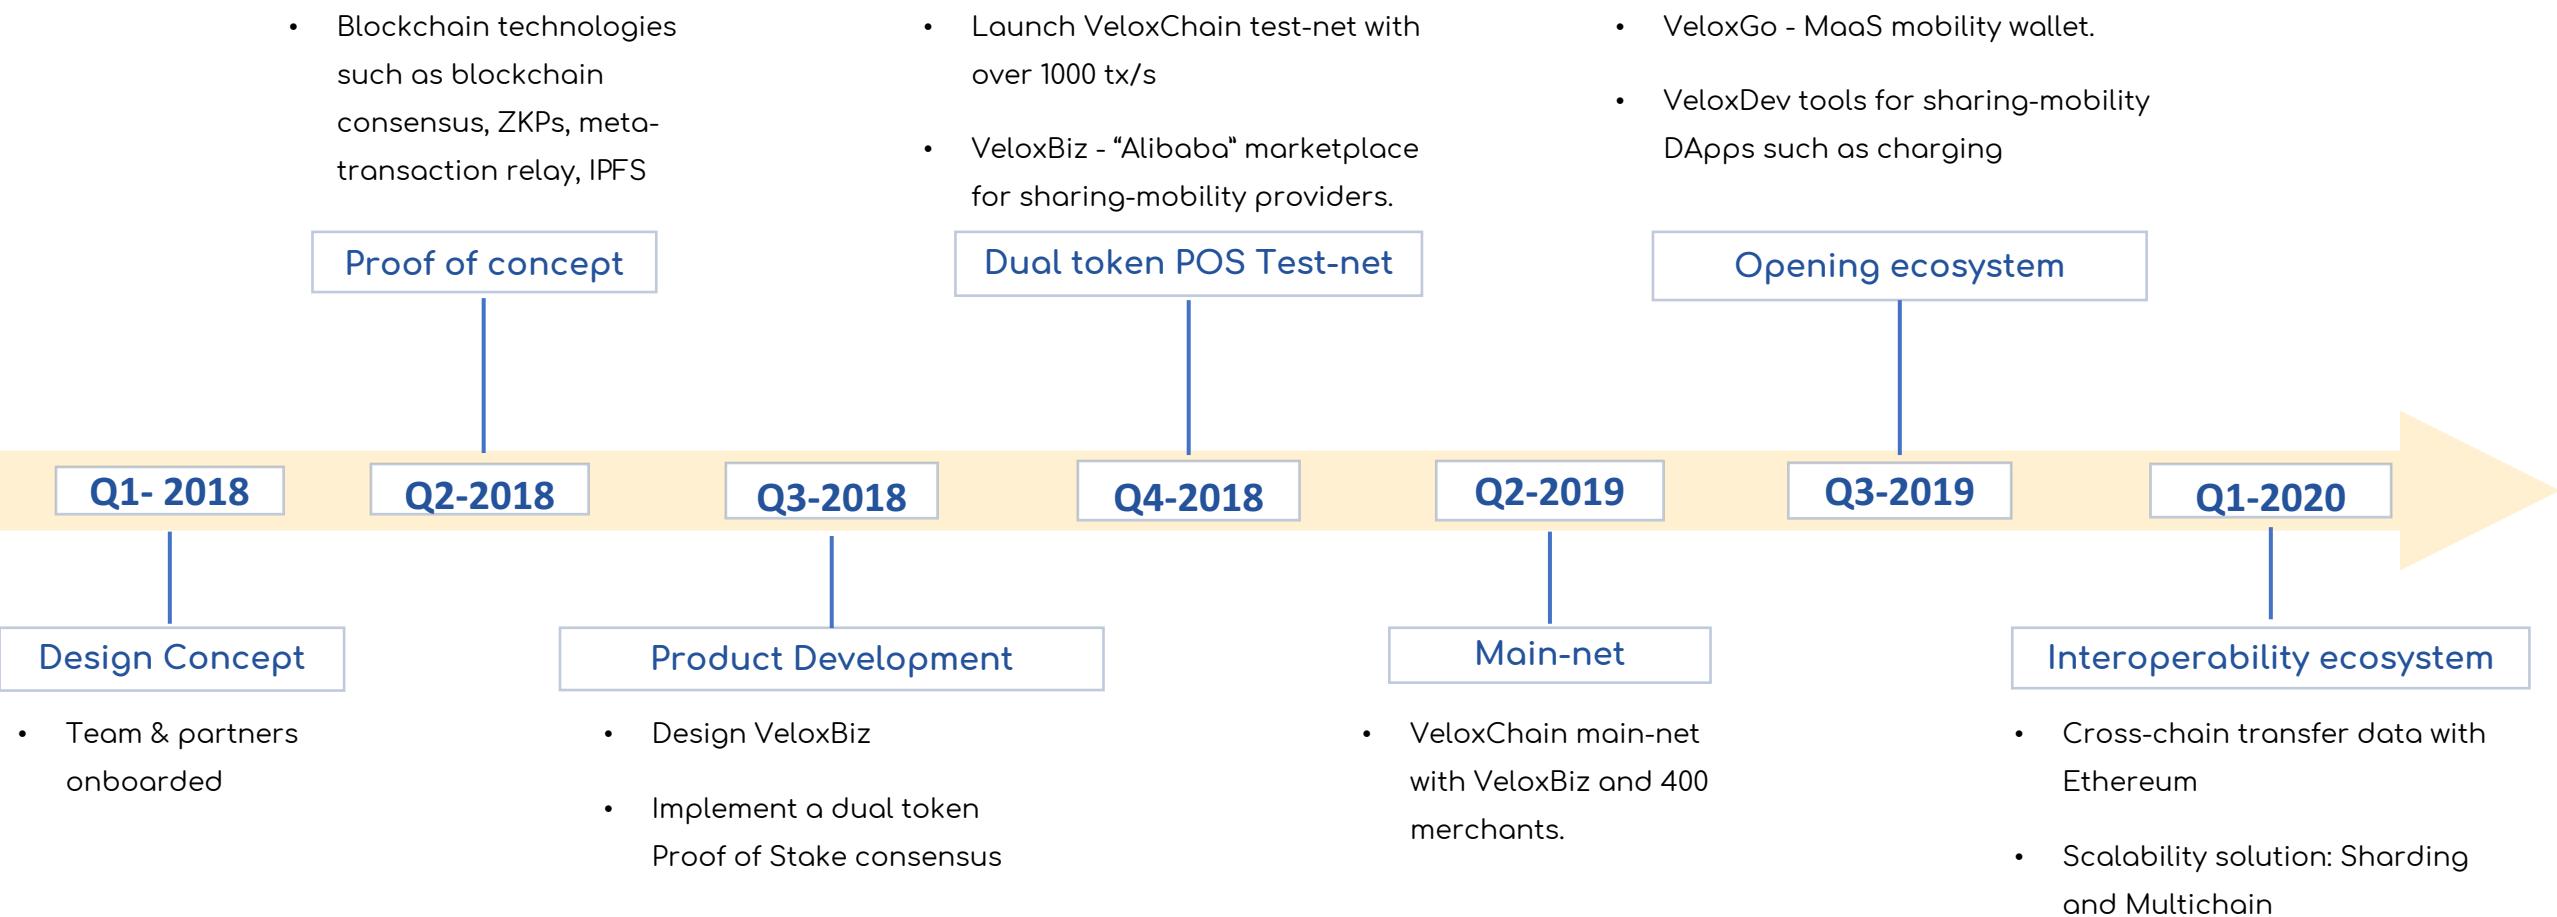

## Building Sales Channel through IT/Blockchain Solution Providers to vendors

- Veloxchain could be sold as part of the total solution to fleet operators by local IT/SaaS/BaaS solution providers
